Permanent Committee Sanitary Board. 6th July, 1894.

Sir,-The Permanent Committee have the honor to acknowledge the receipt of your letter No. 1146 of the 3rd July in reply to their communication of the previous day on the anbject of the removal of the sok to the Chinese plague hospital at Lai-chi-kok.

The Committee apologies for the delay in answering this letter, but it was only received by the Chairman between 5 and close of the meeting of the Committee on that day. It only came up, therefore, for consideration at their meeting on the 4th instant, when it was fully discussed, and instructions were given for the preparation of a reply; and the drafting of that reply has been delayed by the fact that the Chairman has been engaged in the Supreme Court in an important case for the last two quisite time and attention to it.

#### THE CHINA REVIEW.

PUBLISHED BI-MONTHLY.

THIS Review, which was intended to meet the wants of many students of Chinese caused by the discontinuance of Notes and caused by the discontinuance of 'Notes and Queries on China and Japan,' has reached its Twenty-first Volume. The Review discusses those topics which are uppermost in the minds of students of the 'Far East' and about which every intelligent person connected with China or Japan is desirous of acquiring trustworthy information. It includes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc., etc., of China, Japan, Mongolia, Tibet, and the Far East generally. Recently a new departure has been taken, and the Review now gives papers on Trade, Commerce, and Descriptive notes of Travel by well-known Descriptive notes of Travel by well-known and the SEINATE of the Descriptive notes of Travel by well-known writers. It was thought that by extending the scope of the Review in this direction, the Magazine would be made more generally Memorial Hospital

The Review department receives special attention, and endeavours are made to present a careful and concise record of Literature on China etc., and to give critiques embodying sketches of the Most recent works on such topics. Authors and Publishers are requested to forward works to 'Editor, China Review, care of China

ledge on obscure points. The Correspondents' column also affords farther and greater facilities for the interchange of views and discussion of various

Chalmers, Eitel, Bretschneider, and Hirth, Professor Legge, and Messrs Balfour, Watters, Stent, Phillips, MacIntyre, Groot, Jamieson, Faber, Kopsch, Parker, Playfair, Giles, Piton, and Taylor,-all well-known names, indicative of sound scholarship and thorough mastery of their subject.

the number. -H.K. Daily Press. Trubner's Oriental Record contains t following notice of the China Review: The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, some what similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of inform. ation, rendering some such channel of publicity as is now provided extremely desirable : and contributions of much interest may fairly be looked or from the members of the foreign consular services, the Chinese Customs' corps, and the missiomary body. among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the Review by papers highly creditable to their respective authors.

Bome translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that Notes and Queries are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary real to that which was displayed during the lifetime of its predecessor in the field, and that the China Review may receive the support necessary to insure its continuance.
